

Canoe Journey Memory Game

Equipment:

Several sets of Canoe Journey cards, need one more set than number of teams, masking tape

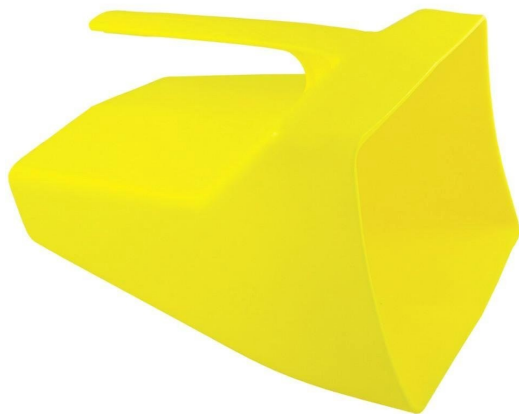

Set up one set of cards along a path or around the building. All Joeys pass slowly along the line of cards in single file. No one is permitted to walk back once he has passed a picture. Joeys work in teams to assemble their cards in the same order that they have just seen. Team with the most correct list wins. If there are any "red herrings" get the Joeys to identify which items they should take on a canoe journey and which not to take. Discuss the results as a group.
